

“ THE UK'S LEADING  
PROVIDER OF VEHICLE  
MOUNTED MEWPS AND  
SPECIALIST VEHICLES  
FOR HIRE AND LEASE ”

# WHY ACCESS HIRE?

**With over 15 years experience, Access Hire has cemented its market leadership by combining industry insight with a commitment to innovation.**

Our key differentiator is our extensive, modern fleet, including 1,800 vehicle mounted MEWPs, the eco-friendly Access Zero van and other specialist vehicles all of which are designed around sustainability and urban compliance.

Our service is comprehensive and all-encompassing, offering 24/7/365 nationwide service and maintenance, coupled with fully accredited IPAF training. Our expert in-house team is always available, delivering operational support designed to minimise downtime and expedite the success of your projects.

## QUALITY

Market leading products... always

## SERVICE

Premium levels of customer service with nationwide coverage

## ENVIRONMENT

Continuous investment in fleet to provide the most modern, fuel efficient vehicles possible

## VALUE

The largest, most modern fleet backed by premium levels of customer service providing value and outsourced solutions

## WELLBEING

Peace of mind that you are partnered with a company that cares about your business and your people

# SPECIALIST VEHICLES

Unlock the full potential of your fleet with our bespoke vehicle conversions. Tailor-made to meet the unique demands of your business, our service encompasses a thorough design consultation, precision manufacturing, and expert installation.

No matter the size of your fleet, from a few vehicles to hundreds, we ensure each conversion perfectly aligns with your specific operational needs. Partner with us and benefit from a dedicated account manager who will oversee your project from start to finish, guaranteeing smooth execution and outstanding results.

Our vehicle conversions go beyond the standard, delivering exceptional functionality and efficiency to your business operations.

## CASE STUDY: SPLICING VAN

We partnered with a customer that works in the Telecoms sector to design and build a fleet of vans for their splicing team.

This bespoke build included features such as:

- / Full width and length hex grip flooring - centre walkway lined with heavy duty yellow gritted fibreglass anti-slip
- / Thetford toilet with built in flush tank and removable cassette for emptying waste
- / Warm-water handwash
- / Splicing access hatch with internal strap and brush strip - internally lockable
- / Dedicated inverters, power sockets & cabin heaters
- / Long worktop bench & racking with specialist splicing clamps, work stool, storage and LED work lamps
- / Roof mounted ladder rack
- / Additional external LED lights for safety and safe working
- / Rear access step in yellow
- / Deadlocks to side and rear door
- / Chapter 8 livery

# IPAF TRAINING

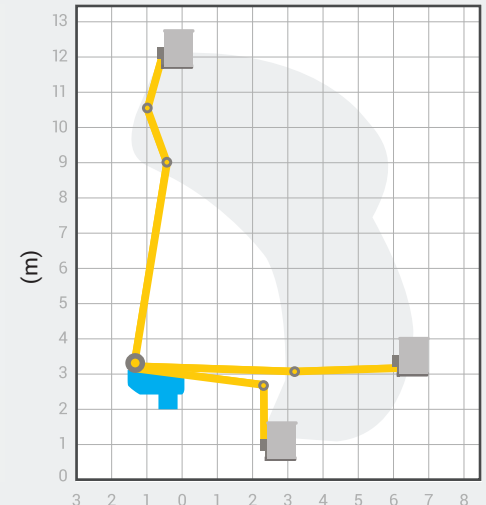

**Providing industry leading training for your workforce is essential to ensure safe and efficient operation in various work environments, especially on specialist vehicles such as van mounted MEWPs.**

That's why we are proud to be an approved International Powered Access Federation (IPAF) training centre, offering a variety of courses on our van mounted MEWPs.

With over 20+ years experience working with van mounted MEWPs, our expert instructor guides delegates through the comprehensive course covering safety, operation, maintenance, emergency procedures and common faults to improve platform efficiency.
